Lambs \$12.25-\$12.50.
Canvans and cutters \$1.50-\$2.00.

WORK PROGRESSES ON NEW C.H.S. FIELD

Leveling Process Being Done
by Hand to Insure Uniform Surface.

READY BY SEPT. 15

Will Be One of the Best High School Athletic Grounds in the State.

The work on the new athletic field for Columbia High School is progressing well, according to E. W. Barkwell, the contractor who has charge of the work.

It will probably be completed about September 15.

The work of excavating and leveling the site to the proper level is now being done. At the east end of the field the level will be reduced eleven feet. At the west end, which is much lower, there will be a small fill required to bring the surface up to the proper level. The entire surface of the field is to be especially prepared to make it suitable for an athletic field. The surface is to be cut below the level required and then built up again with selected material chosen especially for this purpose. All of this work will be done by hand to insure a uniform surface.

At present there are to be no bleachers or walls about the field. This work is being held up on account of the lack of funds. It is hoped that money may be raised later to make possible a temporary bleacher to take care of the coming football season. The plans call for a concrete wall on the Hickman avenue side of the field but at present this will be leveled off and a temporary terrace made along this side. At the east end where the cut is very deep a sloping terrace is to be made. A low sloping terrace will run along the south side also. This side is to be the site of the bleachers when they are erected. It is hoped to build a bleacher almost the entire length of the field.

When the field is completed it will be 370 feet long by 184 feet wide. The regulation or standard field is 300 feet by 160 feet. The extra length and width will be taken up later by a twelve-foot running track which is to be constructed about it. That also is to be deferred for the present.

At each end there will be an additional space of thirty-five feet beyond the track. This will prevent the field from having a cramped appearance and will provide a place for tools, extra equipment and the extra materials which are always found about an athletic field.

When this field is completed it will be one of the best high school fields in the state.

Will Meet Tomorrow Morning.
The Women's Auxiliary of the Presbyterian Church will meet at the church at 10 o'clock tomorrow morning.

Big League Standings

American League			
Club	Won	Lost	Pct.
